

The Department is responsible for the administration, enforcement and issuance of electrical permits and the oversight of electrical inspections. Permits: Electrical permits are required for all electrical work in Bullitt County. Electrical contractors may obtain electrical permits if they hold a Master Electrician license or employ a Master Electrician. Electrical Contractors must also have proof of liability insurance. Homeowners may obtain electrical permits for work on the property they own and in which they reside. Homeowner electrical permits cannot be issued for vacant property, rental property or duplexes. Inspections: All electrical work must be inspected. It is the permit holder's responsibility to call for the inspection and insure the work is accessible.
