Effective immediately builders must submit plans for the fire protection review to the Fire Chief having jurisdiction prior to the beginning of any construction. All plan submittals shall include the location and placement of any fire hydrants (proposed or existing), fire lanes, sources of water supply, and access roads on both public and private property as required by Ordinance# 08-21. The Fire Chief shall forward his/her recommendation(s) to the Building Official within (7) seven calendar days of receipt of plans. Builders are required to provide evidence of such submittal upon request.
